

Memorandum

Oregon Department of Fish and Wildlife

Date: September 12, 2025

To: Fish and Wildlife Commissioners

From: Ken Loffink, Chief Operating Officer

Subject: July 2025 Financial Report

Department Financial Report

This report represents the close out of the 2023-2025 biennium. The budget will remain open through December 2025 and there will still be expenditures posting against the 2023-2025 budget as final adjustments are made, but this will be the last financial report on the 2023-2025 budget as we transition to the new biennium. For the month ending July 30th, 2025, the department's unrestricted cash balance finished at \$79.7 million and restricted cash finished at \$89.3 million, for a total of \$169.0 million in custody at State Treasury. The unrestricted cash balance increased \$6 million from the previous report due to strong license sales and receipt of federal reimbursements. The unrestricted cash balance also includes \$20 million in insurance funds for damages from the 2020 wildfires.

All agency expenditures for the 2023-2025 biennium are tracking as expected. Total agency expenditures for the biennium are currently 73.25% of our legislatively approved budget limitation. As noted, expenditures will increase slightly as adjustments are made prior to biennium closeout later this year. Agency revenues are also tracking as expected, but it's worth noting that 2025 license sales have been strong, with license revenues through August 3% higher than in 2024. Strong license sales are expected to continue through October, which will help to sustain end balances, before declining in the latter stages of the year.

2025-27 Budget Development

The 2025-2027 budget is final and is now in the budget execution phase. Our budget team is working on auditing information with the DAS Chief Financial Office and is working closely with agency programs on populating expenditure projection sheets and finalizing program allocations. The next financial report will include expenditures and revenues for the 25-27 biennium.

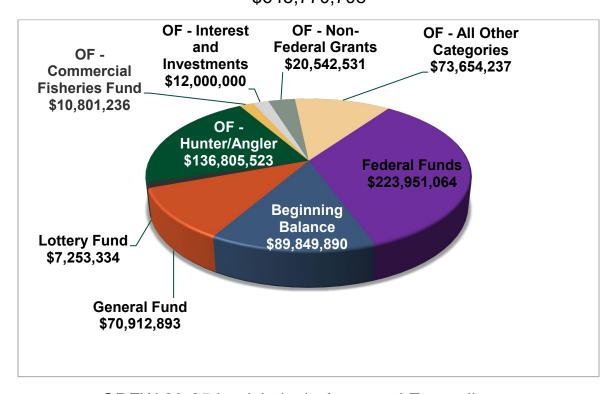

2027-2029 Budget Development

Budget development has not started for the 2027-2029 biennium. The agency's development process will be initiated this winter with a review of revenue and expenditure projections for the next biennium.
