

Amendment to Exhibit D
Attachment 3
2026-27 Big Game Regulations
Sep 12, 2025
(Edits in red)

Item	Page	Edit
Attachment 3: Staff Proposals Big Game Regulations	28, 29, 31, 32	Correct hunt names by adding mule deer to hunts EH101, EH102, NE101, NE102, NE103, NE104, SW102, EH102R, NE101R, NE102R, NE103R, NE104R, and SW102R.
Attachment 3: Staff Proposals Big Game Regulations	28, 29, 31, 32, 33	Correct hunt names by adding whitetail to hunts EH101-1, EH102-1, NE101-1, NE102-1, NE103-1, NE104-1, SW102-1, EH102R1, NE101R1, NE102R1, NE103R1, NE104R1, SW102R1, NE101M, NE102M, NE103M, NE104M, EH101M, EH102M, and SW102M.
Attachment 3: Staff Proposals Big Game Regulations	29, 31	Correct hunt name by adding late whitetail to hunts HE101-2 Northeast 01 and AD101R1 Aldrich 01 Bow.
Attachment 3: Staff Proposals Big Game Regulations	29	Correct hunt name and 2026-2027 hunt end date of MC102-2 from Late-Columbia 03 to Late Mid-Columbia 02 and 30-Dec-26 to 29-Nov-26
Attachment 3: Staff Proposals Big Game Regulations	29	Correct hunt name and 2026 tags for hunt KB101 to Klamath Basin 01 and reflect correct number, from 900 to 990 for Adjusted 2026 Tags.
Attachment 3: Staff Proposals Big Game Regulations	31	Correct 2026-2027 hunt dates for 123R1 Umpqua Bow from 29-Aug-26 27-Aug-26 to 29-Aug-26 27-Sept-26
Attachment 3: Staff Proposals Big Game Regulations	33	Correct 2026-2027 hunt dates for KB102M Klamath Basin 02 Muzzleloader from 16-Nov-26 30-Nov-26 to 2-Nov-26 10-Nov-26
Attachment 3: Staff Proposals Big Game Regulations	35	Correct 2026 tags for hunt 619 W McKenzie to reflect correct numbers from 300 to 275 Proposed Tags and 330 to 303 for Adjusted Tags.
Attachment 3: Staff Proposals Big Game Regulations	36	Correct hunt name from MC601 Mid Columbia 01 Orchards to The Dalles Orchard .
Attachment 3: Staff Proposals Big Game Regulations	37	Correct hunt name from MC602T Mount Hood Youth to Mid Columbia 02 Youth .

Attachment 3: Staff Proposals Big Game Regulations	37	Correct hunt number and name from SW601T South Wallowas 01 Youth to SW602T South Wallowas 02 Youth .
Attachment 3: Staff Proposals Big Game Regulations	37	Correct 2026-2027 hunt dates for 620T2 Territorial Youth from 7-Nov-26 29-Nov-26 to Nov 7-8, 14-15, 21-22, 28-29 2026
Attachment 3: Staff Proposals Big Game Regulations	37	Correct 2026-2027 hunt dates for 623T2 N Bank Habitat Area No. 2 Youth from 31-Dec-26 8-Nov-26 to 31-Oct-26 8-Nov-26
Attachment 3: Staff Proposals Big Game Regulations	38	Correct hunt name from SW601T1 South Wallowas 01 Youth to SW602T1 South Wallowas 02 Youth .
Attachment 3: Staff Proposals Big Game Regulations	39	Correct Proposed 2026 Bag Limit for 215A Willamette Plus from One elk (Spike or antlerless elk from Aug. 30 – Oct. 31 in Monroe Subunit) to One elk (Spike or antlerless elk from Aug. 29 – Oct. 31 in Monroe Subunit)
Attachment 3: Staff Proposals Big Game Regulations	42	Correct 2026-2027 hunt start date for hunt 251C S Sumpter Unit from 18-Oct-26 to 17-Oct-26
Attachment 3: Staff Proposals Big Game Regulations	44	Correct 2026-2027 hunt start date for hunt 267 Owyhee Unit from 18-Oct-26 to 17-Oct-26
Attachment 3: Staff Proposals Big Game Regulations	44	Correct 2026-2027 hunt start date for hunt 268 Whitehorse Unit from 18-Oct-26 to 17-Oct-26
Attachment 3: Staff Proposals Big Game Regulations	45	Correct 2026 tags for hunt 253R2 Eagle Cap Traditional Bow to reflect correct number, from 220 to 200 for Adjusted 2026 Tags.
Attachment 3: Staff Proposals Big Game Regulations	46	Correct 2026 tags for hunt 221T1 Indigo Unit Youth to reflect correct number, from 22 to 20 for Adjusted 2026 Tags.
Attachment 3: Staff Proposals Big Game Regulations	46	Correct 2026 tags for hunt 219T McKenzie Unit Youth to reflect correct number, from 22 to 20 for Adjusted 2026 Tags.
Attachment 3: Staff Proposals Big Game Regulations	47	Correct 2026 tags for hunt 251T Baker Youth to reflect correct number, from 107 to 100 for Adjusted 2026 Tags.
Attachment 3: Staff Proposals Big Game Regulations	47	Correct 2026 tags for hunt 252T1 Starkey Youth to reflect correct number, from 33 to 30 for Adjusted 2026 Tags.

Attachment 3: Staff Proposals Big Game Regulations	47	Correct 2026 tags for hunt 253T Catherine Cr Unit Youth to reflect correct number, from 33 to 30 for Adjusted 2026 Tags.
Attachment 3: Staff Proposals Big Game Regulations	47	Correct 2026 tags for hunt 264T Baker Youth to reflect correct number, from 44 to 40 for Adjusted 2026 Tags.
Attachment 3: Staff Proposals Big Game Regulations	49	Correct 2026 tags for hunt 462 Pine Cr - Keating to reflect correct number, from 6 to 5 for Adjusted 2026 Tags.
Attachment 3: Staff Proposals Big Game Regulations	51	Correct 2026 tags for hunt 575A1 South Central No. 1 to reflect correct number, from 1 resident tag to 2 for Proposed 2026 Tags.
Attachment 3: Staff Proposals Big Game Regulations	53	Correct 2026 tags for hunt 764 Lookout Mtn Unit to reflect correct number, from 72 to 43 for Adjusted 2026 Tags.
Attachment 4: Draft Oregon Administrative Rules	13	Correct Table 1 in 635-065-0740 to match the table below:

Table 1 Wildlife Management Units and dates requiring a valid deer, elk, pronghorn antelope, bighorn sheep, or Rocky Mountain goat tag to hunt with a centerfire rifle.

Season (2025 2026 Dates)	Wildlife Management Units
Eastern OR Controlled Buck Deer (Oct. [4-15] 3-14)	31-77
West Cascade Bull Elk (Nov. [8-14] 7-13)	16, 19, 21, 22, 29, 30
Rocky Mtn. Bull Elk 1 st Season [Oct 29 - Nov 2] (Oct. 28 – Nov. 1)	31-39, 41, 42, 45-64, 66, 69, 72, 74-77
Rocky Mtn. Bull Elk 2 nd Season (Nov. [8-16] 7-15)	32, 35-38, [40-64] 41, 42, 45-64 , 66, 69, 72, 74-76, portions of 33 and 77 E of Hwy 97
Coast Bull Elk 1 st Season (Nov. [15-18] 14-17)	10-15, 17, 18, 20, 23-27
Coast Bull Elk 2 nd Season (Nov. [22] 21 – Nov. [28] 27)	10-15, 17, 18, 20, 23-27
S. Coast Controlled Bull Elk (Nov. 14 – Nov. 18) (Nov. 21 – Nov. 29)	24-27

INTRODUCTION

This document contains information regarding the Oregon Department of Fish and Wildlife (department) proposed seasons and regulation changes for the 2026 Big Game Regulations, including tables for the 2026 controlled hunt tag numbers. The 2026 Oregon Big Game Regulations are expected to be printed and available at License Agents, department offices, and online in November 2025.

Soon after distribution of the 2026 Big Game Regulations, the process of developing seasons and regulations for 2027 will begin. The tentative Big Game Regulation development timeline for 2026 seasons is outlined below (including processes to date).

November 2024 - March 2025: District staff conduct field surveys

April 1, 2025: Deadline for canceling 2025 hunts or making emergency tag changes

May 9, 2025: District staff deadline for draft 2026 tag proposals

June 2025: Division meets with biologists to discuss population status, 2025 seasons, tag numbers, and regulations

July 2025: Districts conduct public outreach/meetings

September 2025: Commission Adoption of 2026 hunting seasons and tag numbers

November 2025: 2026 Big Game Regulations delivered to vendors and available online

PUBLIC OUTREACH AND OPPORTUNITY FOR INPUT

The department recognizes that the proposed changes to mule deer hunts for 2026 are significant. Because of this, outreach on the topic has been extensive. The changes were discussed in the setting of the 2025 Big Game Regulations at the September 2024 Fish and Wildlife Commission meeting, an informational box was included in the 2025 Big Game Regulations book, an article was printed in the OHA spring 2025 magazine, and other outlets including sports group meetings, sport shows, social media posts, podcasts, targeted emails, and traditional news outlets.

On July 3, 2025, the department used a news release to post public meeting times, dates, and links, the initial Big Game regulations draft proposals, and draft controlled hunt tag tables resulting from the annual coordination with wildlife districts. During the weeks of July 7th and 14th, district staff held four public meetings across the state to present draft proposals and gather feedback from local constituents. The four regionally-focused meetings were held virtually and allowed members of the public to (virtually) attend meetings very far from home and ask questions of the department biologists overseeing their hunt(s) and area(s) of interest. Meeting recordings were later posted online.

Questions were received before and during the meeting and addressed by local wildlife biologists. Biologists encouraged participants to provide written comments directly to the department and Commission but also composed written summaries from the local outreach meetings. In addition to the public meetings, field staff also met with interested local constituents and responded to inquiries for information.

GENERAL TOPICS AND UPDATES

Chronic Wasting Disease (CWD)

The department remains vigilant in its efforts to preserve the health of Oregon's deer and elk. While Chronic Wasting Disease (CWD) has not yet been detected in Oregon, our ongoing surveillance is more important than ever as the disease has been confirmed in neighboring states including Idaho, California, and Washington. The department continues to sample hunter-harvested animals, roadkills, and other high-risk cases; staffing mandatory check stations and partnering with meat processors and taxidermists across the state. All of this work helps ensure early detection if CWD ever reaches our herds. These efforts are guided by our updated CWD Management Plan, with prevention, testing, and public outreach central to protecting Oregon wildlife. As a result of this ever-increasing effort, a substantial increase in samples has been observed in recent years (Table 1). The department is in the process of hiring eight seasonal positions and one full time position to increase CWD surveillance capacity. Funding of these positions is occurring through the license fee adjustment passed in the 2025 legislative session. With the aid of partners, the department will continue to think creatively and act strategically to continue this upward trajectory.

Table 1. Oregon chronic wasting disease (CWD) samples from sample years 2002 to 2024 (sample year is 1-July to 30 June). Data based on samples received at the ODFW Wildlife Health and Population Lab.

	2002-19	2020-21	2021-22	2022-23	2023-24	2024-25	TOTAL

HUNTING SEASONS AND SPECIES-SPECIFIC INFORMATION

Background

Department proposals for 2026 Big Game Hunting Seasons implement the wildlife policy and seven coequal goals of wildlife management as required in ORS 496.012. These proposals aim to prevent the serious depletion of any indigenous species and to provide the optimum recreation and aesthetic benefits for future and present generations of Oregonians. These proposals address the specific coequal goals of:

- maintaining wildlife species at optimum levels
- permitting an orderly and equitable utilization of available wildlife
- regulating wildlife populations and the public enjoyment of wildlife in a manner

- compatible with the primary uses of the land
- providing optimal recreational benefits
- making decisions that affect wildlife resources for the benefit of the wildlife resources and to allow for the best social, economic, and recreational utilization of wildlife resources by all user groups.

All big game species hunted in Oregon are polygamous, meaning one male breeds with multiple females. Because of this, harvest of males has limited effect on population growth and population size except at extremely high harvest levels. At lower levels, harvest of females can be compensatory, meaning that harvest doesn't result in a decrease in overall female survival or an increase in mortality. At higher levels, female harvest has the potential to affect or limit population size. As a result, higher levels of female harvest can be a tool to manage or reduce population size and/or associated conflict. Female harvest is generally more restrictive than male harvest and is closely tracked to avoid unintended impacts to big game populations.

Review of 2022 Hunt Changes

The department initiated a project to thoroughly review the Big Game Hunting Regulations, beginning with the 2018 Regulations and continuing through the 2023 Regulations. For 2026, no major concepts are being proposed but the department evaluated one change implemented for the 2022 hunting seasons. This practice of evaluating changes to hunt concepts following three years of implementation has been the norm for multiple years.

The past change currently being evaluated was the creation of 16 new control elk archery hunts in northeastern Oregon for the 2022 season. This was a shift away from the general archery season in those units. The shift from a general archery elk season, which allowed unlimited tags with the ability to hunt multiple units, to a controlled season has allowed biologists to more closely manage harvest and adjust tags at the WMU level when necessary. Initial tag numbers were set to accommodate previous general archery season hunter participation when units were above or at bull ratio management objective (MO) or reduce tags in units below bull ratio MO to allocate harvest so that archery seasons account for approximately 35% of branch bull harvest.

During the three years since implementation the number of hunters and total days hunted in each of the 12 WMUs affected has seen a decrease in the number of hunters and number of days hunted during archery season. However, each year since implementation after the controlled hunt draw, 4 of the 16 control hunts have had left-over tags available, and of those with no leftover tags, only 43% of the tags drawn were first choice. Furthermore, of the hunters that had one of the 16 hunts as a first choice, over 50% used 0 preference points to draw the tag. While there has been a slight decrease in the number of hunters hunting in these areas, opportunity to archery hunt in these units remains high. The new controlled hunt structure has provided biologists with improved tools to manage elk populations without significantly limiting hunter access; therefore, the department is proposing continuation of these controlled hunts.

Big Game Hunting Regulation Proposals

Two proposed changes regarding general regulations pertain to increasing clarity regarding prohibited devices and equipment. The intent is to ensure regulations can maintain expectations of fair chase amidst advancing technology. First, additional language is being proposed to clarify that the prohibited use of any electronic device attached to, or incorporated in, the firearm or scope while hunting applies even if the electronic capability is turned off. Cameras and scopes with lighted reticles are exempt but scopes capable of receiving information from an electronic device are also prohibited. The second is the inclusion of the word “thermal” when describing prohibitions on the use of infrared devices. This expanded regulation would read it is unlawful “to hunt, locate, or scout, for the purpose of hunting any wildlife with infrared, including thermal, or any other “night vision” sight or equipment except trail cameras”.

The department also received a request for regulations prohibiting the hunting of big game near designated wildlife crossings. While no known situations have occurred, hunters and groups have expressed a desire to proactively implement restrictions so wildlife use of those critical structures is not compromised. Similar restrictions already exist in the Oregon Furbearer Hunting and Trapping Regulations where traps cannot be set within 500 feet of the mouth of designated wildlife crossing structures. Following that model, the department is proposing that no hunting occurs and no animals are taken within 500 feet of the mouth of current designated wildlife crossings on US Highways 20 and 97.

Proposed General Season Bag Limits and Dates

As a reminder, the hunting season framework was modified in 2020 so that the season dates are built off of the buck deer any legal weapon season opening on the first Saturday in October. To keep openers on the correct day of the week, the 2026 dates below in Table 2 are one calendar day earlier than 2025.

Table 2. Proposed general season dates and bag limits for 2026.

Species/Season	Bag Limit	Proposed 2026 Dates
DEER		
Western OR. General Buck Deer	Buck with visible antler	Oct. 3 – Nov. 6
BEAR (Cubs and sows with cubs are protected)		
General Fall Bear Season	1 Bear	Aug. 1 – Dec. 31
Additional Statewide Bear	1 Bear	Aug. 1 – Dec. 31
COUGAR (Spotted kittens and females with spotted kittens are protected)		
Statewide Tag	1 Cougar	Jan. 1 – Dec. 31
Additional Statewide Tag	1 Cougar	Jan. 1 – Dec. 31
ELK (Note: Antler restrictions apply in certain units)		
Coast First	Any Bull ^a	Nov. 14 – 17
Coast Second	Any Bull or Spike Only ^a	Nov. 21 – 27
West Cascade	Any Bull ^a	Nov. 7 – 13
Rocky Mtn. Second	Any Bull or Spike Only ^a	Nov. 7 – 15
General Season Elk Damage Tag	Antlerless Elk	Western Oregon and elk de-emphasis areas, Aug. 1 – Mar. 31; Eastern Oregon outside elk de-emphasis areas Aug. 1 – Nov. 30
ARCHERY (Note: Antler restrictions apply in certain units)		
General Archery Buck Deer – Western Oregon	Buck with visible antler or One Deer (varies by Unit) ^b	Aug. 29 – Sept. 27
NW Deer Late Season	Buck with visible antler or One Deer (varies by Unit) ^b	Nov. 21 - Dec. 13
SW Deer Late Season	Buck with visible antler or One Deer (varies by Unit) ^b	Nov. 14 – Dec. 6
Elk	Legal Bull, (varies by Unit) ^a	Aug. 29 – Sept. 27
WESTERN GRAY SQUIRREL		
North-Central Oregon	3/day - 6 in possession	Sept. 15 – Oct. 31
Remainder of Oregon	5/day - 15 in possession	Sept. 1 – Nov. 15

^a Bag limit for archery hunters and hunters with disabilities permits may be expanded to include antlerless elk in select units. No changes to which units have an expanded bag limit are proposed for 2026.

^b Bag limit for archery hunters and hunters with disabilities permits may be expanded to include antlerless deer in select units. No changes to which units have an expanded bag limit are proposed for 2026.

Proposed Application and Tag Sale Deadlines

Application fees for controlled hunts are proposed to increase from a \$6 per application to \$8, meaning with the \$2 license agent fee, applying for a controlled hunt in 2026 will cost \$10 per application. The application cost will increase by \$1 again in 2028 and by an additional \$1 in 2030. The controlled hunt application fee was included in the department's public outreach relative to the fee adjustment package passed during the 2025 legislative session. This administratively set fee was last changed for the 2010 license year.

Controlled hunt application deadlines are set to occur the same date each year (Table 3). Tag sale deadlines (Table 4) are set at 11:59 pm the day before each respective season opens, except general bear and general cougar tags which have the same tag sale/pickup deadline as any legal weapon (ALW) buck deer.

Table 3. Controlled hunt application and tag sale deadlines proposed for 2026.

Controlled Hunt Drawing	Application Deadline	Tag Sale Deadline
Spring Bear Draw	February 10	Day Before Hunt Opens
Big Game Draw ^a	May 15	Day Before Hunt Opens

^a Excludes Spring Bear.

Table 4. General season tag sale deadlines in place for 2025 and proposed for 2026.

Species or Season	2025 Tag Sale Deadline	2026 Tag Sale Deadline
Bear	Oct. 3	Oct. 2
Additional Bear	See Footnote*	See Footnote*
Cougar	Oct. 3	Oct. 2
Additional Cougar	See Footnote*	See Footnote*
Deer & Elk Archery	Aug. 29	Aug. 28
Western Deer Any Legal Weapon	Oct. 3	Oct. 2
West Cascade Elk	Nov. 7	Nov. 6
General Coast 1 st Season	Nov. 14	Nov. 13
General Coast 2 nd Season	Nov. 21	Nov. 20
Rocky Mt. 2nd Elk	Nov. 7	Nov. 6
General Antlerless Elk Damage Season	No Deadline	No Deadline

*May be purchased after deadline if first general season tag was purchased by the deadline.

Proposed Controlled Hunt Tag Summary

Total proposed controlled hunt tag numbers for 2026 seasons (~~142,841~~) **(142,893)** are a decrease of 4% from 148,795 in 2025 (Table 5). The majority of the reduction is due to changes made to controlled deer hunts in Eastern Oregon (See Mule Deer Hunt Changes) otherwise only slight changes exist for elk, pronghorn, bighorn sheep, mountain goat and black bear tags. Species-specific information and details are provided below with detailed controlled tag information in Appendices 1 through 8.

Table 5. Summary of 2025 controlled hunt tag numbers and proposed tags for 2026.

Species	Series	Weapon/Type	2025 tags ²	Proposed 2026 tags	% Change 2025-2026
DEER	100	ALW ¹	42,421	38,640 38,730	-9%

Deer Season Summaries and Recommendations

Mule Deer Hunt Changes

Based on the movements from over 1,400 mule deer collared in recent years, the department has identified 22 distinct mule deer herd ranges in eastern Oregon. A mule deer "herd range" includes the entire area a herd uses in a year, including summer ranges, winter ranges, and the migration corridors between them. As directed by the newly updated Oregon Mule Deer Management Plan, these ranges now form the basis for the department's mule deer monitoring and management, including harvest management.

Following herd range definition, improved, stronger population models were developed for each herd range that integrate multiple data sources, including herd composition (buck and doe ratios), abundance, and harvest data. Methods for collecting composition and abundance data transitioned from Wildlife Management Units (WMUs) to herd ranges as the herd ranges were developed. However, proper model function also requires that hunter harvest and effort data is collected within the herd range. This is difficult with the current WMU hunt structure.

To address this misalignment, the department proposes to transition mule deer hunting from WMUs to new Deer Hunt Areas within each of the herd ranges beginning with the 2026 seasons in eastern Oregon. This change will align hunting effort and associated harvest with Oregon's mule deer populations and management goals, improving population monitoring. This will, in turn, allow for quicker and more accurate evaluation of management actions and will better inform management responses.

Hunt Area Delineation Process

Each mule deer herd range was first evaluated to see if and where they might need split into smaller hunt areas. If a split was needed, hunt areas were crafted for the herd range considering a variety of factors including but not limited to information such as mule deer movements, habitat and land use, roads and access, risk of fire closure, and history of other impacts. Some proposed hunt areas encompass the entire herd range. However, because of variability across the herd range in the factors considered, many herd ranges will have multiple hunt areas. The hunt area development process involved all levels of staff from the district, watershed, region and division. Across all new hunt areas, a concerted effort was made to utilize more easily identifiable boundaries to help hunters and law enforcement.

Tag Proposal Process

The department used 2025 tag allocations, and recent data on mule deer movements, hunting, and landscape conditions to direct the process for developing the 2026 tag proposals for eastern Oregon deer hunts. First, hunt area boundaries were created for 2026 in each new Deer Hunt Area that had been included in previous WMU deer hunts. New hunts were created for all series (buck, antlerless, premium, youth) and weapon type (ALW, bow, muzzleloader). Spatial analysis was then used to determine the percent overlap between herd ranges, new hunt areas, and previous WMU based hunts. The total number of deer tags approved in 2025 were then re-

allocated to the proposed 2026 hunts based on results of the spatial analysis. This spatial redistribution also incorporated information on mule deer home ranges from collar data.

Following the initial allocation, local biologists made further adjustments to proposed tags after considering a long list of biological and social factors. Factors considered include, but are not limited to, local knowledge of habitat, hunter access, hunter distribution and crowding concerns, harvest success rates, population status relative management objectives, and recent population composition information.

In Northeast Oregon, the department also is proposing to separate mule deer hunts and white-tailed deer hunts. Tag allocations for each species was based on the observed proportion of mule deer and white-tailed deer harvest in the current WMUs using mandatory harvest reporting data. This provides an additional level of harvest management resolution for mule deer.

Throughout the process, attempts were made to maintain the same relative proportion of tags across hunts and weapon types. Premium Hunts were modified to maintain one tag per new hunt area. Importantly, the final proposals from this process also incorporate information on present population trends. Reductions in tag allocations were needed in some herds to address ongoing population declines and help improve populations currently below management objectives. The net result is a 9% overall reduction in eastern Oregon deer tags across the 100 Series Buck Deer and 600 Series Antlerless Deer (8% reduction in deer tags statewide).

The final outcome is resulting in a new and different mule deer hunting landscape in Oregon. In some herd ranges, deer hunt area tag proposals for 2026 are very similar to the 2025 totals from the WMUs or portions of WMUs contained by the deer hunt area. For example, proposed tags for the Keno and Trout Creek hunt areas are both similar to 2025 tags for the Keno WMU and Trout Creek Mountains controlled hunts. Where new deer hunt areas encompass multiple WMUs, 2026 tag allocations are also very similar to 2025. For example, the SW-02 hunt area primarily comprises the Pine Creek, Keating, and about half of the Catherine Creek Unit. The 2026 tag proposal for SW102 is 704, which is very similar to the sum of 2025 tags for those units: 220 Pine Creek tags + 329 Keating tags + $\frac{1}{2}$ of 330 Catherine Creek tags = 714.

In other areas and herds, however, the 2026 tag numbers may appear very different from those for 2025 because a WMU may be split into multiple herds and deer hunt areas. In these areas, it is extremely important for hunters to review deer hunt area numbers, names, descriptions, and maps to determine what hunt to apply for and adjust where to go. Conversations with local biologists and reviewing available department resources will be very useful in this endeavor.

The department must allocate a proportion of controlled hunt tags for use by nonresident clients of Outfitters and Guides. The number of Outfitter and Guide tags allocation is based on one half of the nonresident tags drawn in the previous year drawing. This allocation is typically determined on a hunt by hunt basis. The transition to deer hunt areas based on herd ranges rather than WMUs results in new hunt boundaries for some controlled hunts while other hunts maintained the previous boundary with just a change to the hunt name and hunt number. Due to the complexity of the shift in hunt boundaries in for 2026 deer hunts in eastern Oregon, the department is proposing Outfitter and Guide allocation of 986 deer tags for 100 series eastern

Oregon hunts and 6 deer tags for 600 series eastern Oregon deer tags, which is half the 1,973 and 12 nonresident tags drawn for eastern Oregon hunts, respectively, in 2025. It is anticipated that Outfitter and Guide allocations for these hunts will return to the previous hunt by hunt formula for 2027.

House Bill 2027, passed in the 2013 Legislative Session, modified the Landowner Preference (LOP) program with a compromise between stakeholders desiring increased flexibility for landowners utilizing the LOP program and stakeholders desiring assurances that potential future reductions in mule deer hunting opportunities would be shared across LOP and controlled hunt participants, should mule deer populations decline. The bill increased the proportion of their available LOP tags that a landowner could designate for use by non-family members and expanded the definition of immediate family to include brother-in-laws and sister-in-laws. The bill also directed the Commission to determine a formula that would determine the number of LOP tags issued for mule deer based on management, research and habitat needs. The bill further stipulates that this formula may be based on the mule deer population goals established in the management plan for mule deer and that when mule deer populations are above plan goals, LOP tags for mule deer must be allocated based on the number of acres the landowner has registered in the program. The current formula must be amended as the 2024 Mule Deer Management Plan modified the mule deer management objective structure. The department will bring a proposal before the Commission, tentatively anticipated for the January 2026 meeting, following a stakeholder engagement process.

Table 6. Modelled population trend for mule deer herd ranges in Oregon, 2019 – 2025.

Herd Range	2019	2020	2021	2022	2023	2024	2025

Population Overview

Using the new, more rigorous herd range population models, the total estimated mule deer population in spring 2025 was about 171,700 range-wide in eastern Oregon (Table 6). This represents a change of less than one tenth of one percent from 2024, and an increase of 1% since 2023 when the mule deer plan was adopted.

Relative to the new population management objectives (MOs) set at the herd range scale in the mule plan, mule deer populations continue to struggle. However, there has been some improvement in several herds with Management Concern Level improving in 4 herds since 2024 (Table 7). The Fox and Trout Creek herds both improved from 'Extreme' to 'Very High', the Keno herd improved from 'Very High' to 'High', and the Klamath Basin herd improved from 'High' to 'Moderate'. The remaining 18 herds did not change in Management Concern level.

Western Oregon black-tailed deer populations were historically monitored utilizing spotlight surveys and hunter harvest data. Using data collected by the West Region Wildlife Research (densities, adult and juvenile survival, buck ratios) as input parameters, newer and more rigorous population models suggest western Oregon black-tailed deer populations are no longer declining and are potentially increasing in some WMUs. Models and input parameters and area-specific models continue to be improved and refined as more research results are compiled.

Damage Tag Exchanges, Emergency Hunts and Harvest

The department has several options available to assist landowners that may be experiencing damage to agricultural crops caused by deer. Use of hunting to remove animals and re-distribute animals is among those options. Landowners can exchange controlled tags and Landowner Preference (LOP) tags for use on their property. In extreme cases an emergency hunting season can be established allowing the landowner to use other hunters to assist with damage abatement caused by deer on their property.

Relatively few agricultural conflicts have occurred in recent years specifically due to deer (Table 8). No emergency hunts were conducted during the last three years. Associated harvest to reduce conflict is also low across the past three years.

Table 7. Management Objective and Level of Management Concern tier levels for mule deer herd ranges in Oregon, 2023 – 2025. Population and Lambda tiers range from Extreme (Tier 1) to Low (Tier 4). There are 5 levels of management concern: Extreme, Very High, High, Moderate, and Low.

Herd Range	Population Tier			Lambda Tier			Management Concern Tier

2024 Deer Season Harvest

The number of hunters in the Western Oregon General Buck Deer Any Legal Weapon (ALW) season declined 2% to 69,986 in 2024 (Table 9). Harvest success remained strong at 33% with a harvest of nearly 23,000 deer. Proportion of spike bucks in the harvest increased from 11% in 2023 to 14% in 2024. The number of general season bow hunters and their associated harvest in western Oregon decreased 3% to 9,941 but harvest increased 9% to 1,852 in 2024.

In eastern Oregon, control bow hunter numbers declined 8% from 8,614 hunters in 2023 to 7,962 hunters in 2024. Associated harvest increased 22% from 1,582 animals in 2023 to 1,933 animals in 2024, with a success rate of about 24%.

The number of deer hunters in the controlled muzzleloader and ALW weapon deer seasons declined in 2024. ALW deer hunters decreased 6% to 29,482 and muzzleloader deer hunters decreased 5% to 1,058. Corresponding deer harvest increased 8% to 10,673 for ALW hunters (36% success rate) and increased 22% to 502 (47% success rate)) for muzzleloader hunters.

General Deer Season Summaries and Recommendations

As noted earlier most seasons are proposed to be moved one calendar day earlier in 2026 when compared to 2025. This includes the Western Oregon General Buck Deer (ALW) and both the early and late periods of General Archery Buck Deer – Western Oregon.

Controlled Buck and Antlerless Deer Tag Recommendations

No changes are proposed to controlled buck deer hunts in western Oregon but substantial changes are proposed for eastern Oregon as describe earlier. Proposed changes to antlerless deer tags in western Oregon include an increase in the Applegate WMU but decreases in three hunts.

Table 9. Number of deer hunters, harvest and success rates in Oregon for 2023 and 2024.

Hunt/Weapon Type	Weapon	2023 Hunters	2023 Harvest	2023 Success	2024 Hunters	2024 Harvest	2024 Success
General Seasons							
Western Buck Deer	ALW	71,479	25,213	35%	69,986	22,911	33%
Early Bow Deer	Bow	4,727	552	12%	4,442	562	13%
Late Bow Deer	Bow	5,566	1,147	21%	5,499	1,290	23%
Controlled Seasons							
Any Legal Weapon	ALW	32,443	10,434	32%	30,574	10,875	36%
Muzzleloader	ML	2,175	856	39%	2,116	1,033	49%
Bow	Bow	8,720	1,637	19%	8,054	1,972	24%
All Deer Hunts		131,671	42,819	33%	120,671	38,643	32%

For eastern Oregon deer hunting when all weapon types are combined, 142 WMU based buck hunts are being replaced with 145 new Hunt Area based buck hunts. With the effort to separate white-tailed deer from mule deer bag limits in eastern Oregon, 123 buck hunts will be for any buck or a mule deer buck, and 22 will be for a white-tailed deer. For **including the youth hunts**, eastern Oregon antlerless hunts, 24 **25** WMU based mule deer hunts totaling 462 **935** tags are being replaced with 22 **27** Hunt Area based hunts total 473 **1,117** tags. With further separation of mule deer and white-tailed deer hunting, 1 new white-tailed deer hunt will be added for a total of 644 tags. In total, the department proposals represent an 8% decrease in controlled buck deer tags and 2% decrease in antlerless deer tags statewide for 2026 (Appendix 1, Appendix 2, Appendix 8).

Elk Season Summaries and Recommendations

Population Overview

Rocky Mountain elk populations continued to do well in eastern Oregon. Twenty-four of 35 units (69%) with data are at or near population management objectives with 14 units greater than 110% of population MO. The eastern Oregon population estimate of approximately 70,600 for the units that were surveyed is 102% of the total population MO of 69,200 for those units. Two areas, the Maupin-Biggs-Columbia Basin units and the East Beulah area, are elk de-emphasis areas and do not have population objectives.

Roosevelt elk populations, however, continue to struggle in some areas of western Oregon. Six of 19 WMUs are near or above population MO. The estimated Western Oregon elk population of 52,507 is 74% of the established total population MO of 70,850. Controlled antlerless hunts are a valuable tool for private landowners to help manage conflict with Roosevelt elk. Controlled antlerless hunts in those WMUs below MO are being maintained at current, conservative levels in areas with high proportions of private

land as a tool to address conflicts with elk. Three areas in western Oregon (Willamette, Applegate, and Melrose WMUs) are elk de-emphasis areas and do not have population objectives.

Damage Tags, LOP Exchanges, Emergency Hunts and Harvest

The Oregon Legislature passed House Bill 2027 in 2013 directing the Department to create and implement a statewide Oregon Landowner Damage Program to address agricultural damage caused by elk. As implemented, the elk damage tag program has no minimum acreage requirements. Further, the program does not limit the total number of tags a landowner may acquire but no more than five tags may be valid at any given time for a specific landowner. The total number of tags issued for an individual landowner is dependent on the type, severity, and persistence of elk damage. Additionally, the option for landowners to exchange unused LOP tags 1 for 2 to address elk damage was removed.

Since the first year of the program, the number of elk damage tags issued annually has fluctuated, with 1,679 tags issued in 2021-2022, 1,926 tags issued in 2022-2023 1,752 tags issued in 2023-2024, and 1,866 tags issues in the 2023-24 seasons (Table 10). Associated harvest under the elk damage tag program has also fluctuated but often correlates to the number of tags issued. As such, harvest via elk damage tags has generally declined in recent years, however total elk harvest to address damage has increased statewide with the onset of the General Season Antlerless Elk Damage Tag (GSAEDT). Declines in landowner use of the elk damage tags in certain areas are most likely due to implementation of the GSAEDT in agricultural areas with chronically high levels of conflict with elk.

2024 Elk Harvest

Based on mandatory harvest survey results, 88,819 elk hunters harvested 18,679 animals in 2024 (Table 11). Total hunters declined from 2023, but harvest increased for 2024 resulting in an increase in success rate from 17% to 21%.

Table 10. Elk tags issued and harvest to address conflict in Oregon during Aug 1 to March 31 seasons.

Total	49,685	11,637	23%	39,134	7,042	18%	88,819	18,679	21%

General Elk Season Summaries and Recommendations

As was noted earlier, most seasons will be moved one day earlier in 2026. This includes all the general bow and general ALW elk seasons except for the General Season Antlerless Elk Damage Tag seasons (GSAEDT). Seasons for the GSAEDT are set dates either from 1 Aug. to 30 Nov., or from 1 Aug. to 31 March depending on the hunt area. Minor boundary changes are proposed in the Keating WMU.

Controlled Elk Hunt Recommendations

There are a few changes proposed to controlled elk hunts for 2026 with most changes consisting of small tag adjustments (Appendix 3). The department is proposing to delete five cow hunts and greatly reduce tags in one cow hunt in the western Cascades due to population concerns and decreased elk conflict. The department will continue to look into west Cascades cow harvest reductions for the 2027 season. In eastern Oregon, 2 hunts will be deleted. With the addition of 3 new hunts as well, the department is proposing a 1% decrease overall to total controlled elk tag numbers for 2026 (Appendix 3).

Pronghorn Season Summaries and Recommendations

Pronghorn Population Overview

Pronghorn are very sensitive to environmental conditions, and population abundance generally reflects variable summer and winter conditions across the landscape. Populations in most of the core areas of southeast Oregon remain steady or have slight improvements in numbers. Some areas have also seen some redistribution of animals in response to recent fires. Currently pronghorn populations are estimated to be 16,000 to 19,000 and remain relatively stable.

2024 Pronghorn Harvest

Mandatory harvest survey data indicate that, in general, pronghorn hunters continue to enjoy good success. There were 1,598 total pronghorn hunters that harvested 1,052 animals (66% success rate). ALW hunters (1,170 hunters) harvested 902 animals (77% success rate). Archery hunters (276 hunters) harvested 81 animals (29% success), and muzzleloader hunters (120 hunters) harvested 43 animals (36% success).

Pronghorn Tag Recommendations

No season changes are proposed for the 2026 pronghorn hunts other than some minor tag number changes. The department is proposing 2,060 **2,059** tags in 52 hunts for 2026 which is ~~43~~**12** more tags than 2025 (Appendix 4).

Bighorn Sheep Season Summaries and Recommendations

Population Overview

California bighorn are found primarily in the high desert mountains, buttes, and uplifts of southeast Oregon and in the John Day and Deschutes River canyon systems. Except for a few herds in Baker and Malheur Counties most California bighorn populations continue to remain relatively stable. The John Day River and Deschutes River are increasing. The statewide California bighorn population estimate is 4,000 – 4,200 animals in 32 extant herds.

Several California bighorn herds in Oregon, including the Lower Owyhee, the Rattlesnake-Tenmile, and the Burnt River herds, continue to be affected by the bacteria *Mycoplasma ovipneumonia* (Movi). Movi causes pneumonia-like respiratory disease that leads to mortality and impacts all age and sex classes in affected herds. The department continues to aggressively test for and remove chronic carriers of Movi in affected herds.

Rocky Mountain bighorn are found in northeast Oregon east and north of Interstate 84. The total population size has declined slightly to between 800 – 1,000 in 11 herds. Latent respiratory disease health issues also persist in some herds of Rocky Mountain bighorns.

The department continues its collaboration with the Hells Canyon Restoration Initiative (HCI) in the tri-state area of Oregon, Washington, and Idaho. Through this process the department is aggressively researching the bighorn sheep disease issue and actively managing herds using results of the research.

2024 Bighorn Sheep Harvest

Bighorn sheep hunts continue to be extremely popular, and hunters continue to have high success rates that are typically 90% or higher. Since 2022 ewe (female) harvest has been used as a measure to help manage population size in the Deschutes and John Day River populations. Population management with ewe harvest is an important tool to help manage population size and disease risk. Persons drawing bighorn tags with an ewe bag limit are not subject to the once-in-a-lifetime restriction that applies to hunters drawing controlled bighorn tags with a ram bag limit.

Bighorn Sheep Tag Recommendations

For 2026, the department is proposing 135 **136** Bighorn Sheep tags (80 **81** California ram, 50 California ewe, 5 Rocky Mountain ram) in 30 hunts (27 California, 3 Rocky Mountain; Appendix 5). Six ram tags and three ewe tags will be allocated to non-residents bringing the overall non-resident tag percentage to ~~6.7%~~ **6.6** percent.

The 556 Wenaha Rocky Mountain bighorn hunt consists of one tag and rotates between the state of Oregon, state of Washington, and the Confederated Tribes of the Umatilla Indian Reservation with each jurisdiction allocating the tag every three years. The state of Oregon had the hunt in 2025 but with the rotation, there will not be a hunt in 2026.

Rocky Mountain Goat Season Summaries and Recommendations

Population Overview

Rocky Mountain goat populations have remained stable or increased in recent years. The total population is estimated to be 1,100 – 1,300 animals, with the largest established populations found in the Wallowa and Elkhorn mountains. One population is found in the Cascades, primarily on Mount Jefferson and Three Fingered Jack.

2024 Rocky Mountain Goat Seasons

The required orientation for Rocky Mountain goat hunters continues to be useful for helping hunters minimize harvest of female goats. Similar to bighorn hunts, Rocky Mountain goat hunts are highly desirable with good success rates and very high proportions of quality animals in the harvest.

Rocky Mountain Goat Tag Recommendations

For 2026, the department is proposing 21 Rocky Mountain goat tags in 12 hunts (Appendix 6). Two tags (9.5%) will be issued to non-resident hunters.

Black Bear Management, Season Summaries, and Recommendations

Bear Population Monitoring

The Department uses a combination of population modeling and data from harvested bears to assess population status and impact of harvest.

Modeling

An integrated population model (IPM) was completed in 2022 that uses multiple sources of Oregon black bear data collected by the department to produce population estimates for each of four bear regions (NW, SW, South Central, NE). Statewide estimates for 2024, which are produced by summing all region estimates, total approximately 43,000 ($\pm 7,000$) black bears statewide. Model estimates over recent years suggest a stable or increasing black bear population. The model also allows the department to make predictions regarding future population estimates by modifying various sources of mortality and variability in model parameters. Current model projections estimate continued population resiliency and growth. As directed by the Plan, the department will continue to use the beforementioned indices in addition to the new IPM to monitor bear populations in Oregon.

Harvest Based Indices

Continued monitoring of harvested bear ages, as directed by the Oregon Bear Management Plan (Plan) and consistent with other states, suggests bear populations are not being over-harvested. According to the age criteria in the Plan, a bear population is considered over-harvested when the median age of all harvested bears is ≤ 3.0 years, the median age for harvested males is ≤ 2.0 years, and the median age of harvested females is ≤ 4.0 years. In 2024, the median age for all harvested bears was 5.0 (an increase from 2023), the median age for harvested males was 4.0, and the median age for females was 5.0 (identical values to 2023). Therefore, these criteria indicate over-harvest is not currently occurring. Based on mandatory check-ins, 66% of the bears taken by hunters (spring + fall) in 2024 were males.

In addition to assessing level of harvest based on median ages, the Plan directs the department to monitor the three-year average percent of adult males (greater than or equal to 5 years old) of all known mortalities and percent of all females in all known mortalities to help ascertain take levels (light, moderate, or high based on Plan criteria). The 2022-2024 average for adult males in documented mortalities was 29% and is indicative of a moderate take level (light $>35\%$, moderate 25-35%, heavy $<25\%$). For females (greater than or equal to one year old), the 2022-2024 average percent of all mortalities was 34%. This value is indicative of moderate take levels (light $<30\%$, moderate 30-40%, heavy $>40\%$).

Check-ins

Due to previous low black bear tooth voluntary submission rates, the department implemented

a mandatory check-in of bear skulls beginning in 2008 as directed by the Plan. Specifically, successful hunters are required to bring the unfrozen skull of any bear they harvest to a department office or a designated check-in site within 10 days of harvesting their bear. A tooth is collected and sent to a lab for aging. This information is important for monitoring population structure and as part of efforts to develop a methodology for estimating black bear populations. In 2024, a total of 1,946 bears were checked-in by hunters (Table 12) and harvest estimates through hunter mandatory reporting number 2,569, a 76% check-in rate (92% Spring harvest, 67% General harvest).

Complaints and Other Mortalities

The total number of complaints recorded for black bear significantly increased from 561 in 2023 to 691 in 2024 which is slightly higher than but still representative of recent norms (Table 12). Most complaints fell into four main categories of human/pet safety, livestock/agriculture, nuisance/structural damage, or garbage. The number of bears killed as a result of damage to timber, livestock, or property decreased slightly from 281 in 2023 to 274 in 2024. The number of complaints and bears taken for damage are largely explained by harsh environmental conditions and events (drought, wildfire) that decrease natural food availability, driving bears to seek food resources in more urban areas and thus creating opportunity for potential conflict. Most conflict-related mortality (87%) continues to occur in western Oregon, where human and bear populations are highest, resulting in damage, human safety concerns, and nuisance issues.

2024 Spring Bear Harvest

In 2024, 9,459 spring bear tags were sold (9,692 in 2023). Mandatory harvest surveys indicate 5,749 hunters participated (61% participation rate) and 920 bears were taken during the 2024 Spring Bear Controlled Hunts. The success rate of Controlled Spring Bear hunters was 16% across all hunts. Harvest per days hunted was a rate of one bear per 40 days hunted. The majority of the bears reported harvested were males (70%).

2024 General Fall Bear Harvest

The number of general season black bear tags issued increased from 64,647 in 2023 to 65,788 (64,609 General Season tags, 1,179 Additional tags) in 2024. Mandatory harvest surveys indicate 1,649 bears were taken during the 2024 General Fall Bear season and 22,207 hunters participated (35% participation rate). The success rate of hunters participating in the 2023 General Fall Bear season was 11.5%. Of the bears harvested, 67 were harvested with an Additional Fall Bear Tag (4% total harvest).

Participation and success were similar to the 2023 General Fall Bear harvest. Reported harvest indicated 63% of the General Fall Bear harvest in 2024 consisted of males and total harvest continued to be higher in western Oregon (66% of harvest) than eastern Oregon.

Table 12. Trends in black bear complaints, damage, harvest, and other mortality in Oregon during the last decade (2015-2024). Mortality data is from the ODFW Wildlife Health and Population Lab. Data are current through 06/27/25. Values may change as late data are added.

Year	Number of Complaints ^a	Number of Tags Sold ^b	Mortalities				Total
			Hunter-Harvest ^c	Damage ^d	Human Safety ^e	Other ^f	
2015	371	58,324	1,367	245	7	55	1,674
2016	335	61,357	1,378	281	15	45	1,719
2017	464	61,593	1,488	267	33	46	1,834
2018	308	62,551	1,529	161	26	47	1,763
2019	525	68,899	1,819	274	40	47	2,180
2020	563	69,841	1,774	282	32	40	2,113
2021	539	74,232	1,580	257	33	62	1,932
2022	1,033	77,452	2,010	353	54	81	2,498
2023	561	74,339	1,628	281	28	33	1,970
2024	691	75,247	1,946	233	34	51	2,264

^a Number of complaints received during the calendar year. Sightings not associated with damage or a public safety concern are not included as complaints.

^b Includes controlled spring, general fall, and additional tags (including Sports Pac licenses).

^c Hunter-harvest data based on mandatory check-in.

^d Number of animals killed as a result of damage during a calendar year.

^e Animals killed as a result of real or perceived threat to humans or pets.

^f Includes roadkill, accidental, found dead, nuisance, or illegal kill.

2026 Spring Bear Season/Tag Recommendations

The department is proposing ~~11,096~~ **11,067** controlled tags in 19 hunts for 2025, ~~403~~ **70** more tags than 2025 (Appendix 7). Proposed tag changes from 2025 are limited to a proposed tag increase for the 731A South Central hunt (from 550 to 605) and for the 754A Mt. Emily – Walla Walla hunt (from 220 to 242). In these WMUs and elsewhere, robust bear populations are sufficient to allow for the increase in tags and potential harvest without any long-term impacts to bear populations.

2026 General Bear Season Recommendations

The department proposes maintaining the General Fall Bear Season dates of Aug. 1 to Dec. 31 statewide. Hunters may purchase and fill an additional fall bear tag if they fill their first tag; however, hunters must purchase the general season tag prior to the deadline to be eligible to purchase an additional tag. This additional fall bear tag hunt area is applicable statewide and is consistent with the additional cougar tag. The department proposes maintaining a statewide hunt area for the additional fall bear tag.

Cougar Season Summaries and Recommendations

Population Overview

The department uses a deterministic, density-dependent population model (Keister and Van Dyke 2002) to estimate annual cougar abundance in Oregon from 1987 to present at the statewide level, and 1994 to present at the zone level. Like most state-level population models

for cougars, this model relies on mortality data (harvest and non-harvest) to develop estimates. The statewide population across all age classes for 2024 was estimated to be 7,060. This is a slight decrease from 2023 (7,073), however, only 3 out of the last 10 years have exhibited a population decline (<1%) and the population has been consistently increasing slowly over time. As cougar zones continue to near estimated carrying capacity, as demonstrated through small occasional population fluctuation, this growth will remain low and/or slow with current observed mortality rates. No cougar zones reached their respective quotas (i.e., mortality caps) in 2024 (Table 13).

Also included in the Oregon Cougar Management Plan, when the average proportion of 3+ year old female cougars in the total mortality exceeds 35% in a zone, the department considers a zone cougar population to be exceeding mortality levels. In the past decade, no cougar zone has exceeded this criterion (Table 14).

Table 13. Total cougar mortalities documented by Cougar Management Zone for 2018-2024.

Zone	Zone Quota	Total Mortality						
		2018	2019	2020	2021	2022	2023	2024
A Coast/N Cascades	180	193	160	138	162	150	140	161

2017-2019	18.1	13.6	16.7	17.8	22.7	19.6
2018-2020	16.7	11.6	12.3	15.1	20.4	16.8
2019-2021	14.7	13.3	13.9	16.9	18.8	15.0
2020-2022	13.7	12.8	16.7	13.2	15.7	16.9
2021-2023	11.1	13.3	16.7	16.7	15.7	21.2
2022-2024	12.1	12.8	16.9	12.8	20.5	18.5

Trends in Harvest, Conflict, and Mortalities

Cougar tags issued increased from 70,908 in 2023 to 72,800 in 2024 (72,378 General Season tags, 422 Additional tags; Table 11). However, hunter harvest decreased slightly from 262 to 258 (Table 15). Cougar tags sold as part of a Sports Pac continue to comprise the majority of cougar tags issued. Table 11 provides information regarding trends in damage complaints and known cougar mortalities from 2015 through 2024. The total number of statewide damage complaints continues to increase for the fourth year in a row. Cougars taken for damage increased in 2024 but the number of cougars taken due to human safety concerns decreased (Table 15). All non-hunting cougar mortalities (213) remained similar to previous years. We expect small fluctuations in mortalities between years and the impact it has on the cougar population is negligible.

Target Areas

No Cougar Target Areas are underway or being proposed at this time.

2025 General Cougar Season Recommendations

There are no proposed changes to the 2026 cougar season length (January 1-December 31) and no proposed changes to the 2026 cougar zone quotas (i.e., mortality caps).

Table 15. Trends in cougar complaints, damage, harvest, and other mortality in Oregon during the last decade (2015-2024). Complaint and mortality data current through 5/15/2025. Numbers may change as late data are added.

Year	Number of Complaints ^a	Tags Sold ^b	Mortalities					Total
			Hunter-Harvest	Damage ^c	Human Safety ^d	Administrative Removals ^e	Other ^f	
2015	444	57,387	233	133	23	0	44	433
2016	421	58,091	268	152	18	71	37	546
2017	462	57,950	292	151	27	60	41	571
2018	669	61,030	270	175	39	68	39	591
2019	569	64,237	280	135	36	4	36	491
2020	538	66,097	273	113	15	0	26	427
2021	491	72,740	254	134	20	0	29	437
2022	513	73,534	260	153	29	0	24	466
2023	541	70,908	262	131	51	0	24	468
2024	552	72,800	258	152	26	0	35	471

^aComplaints received during the calendar year. Sightings not associated with damage or public safety concerns are not included.

^bIncludes general and additional tags (including Sports Pac licenses).

^cNumber of animals killed as a result of damage during a calendar year.

^dAnimals killed as a result of real or perceived threat to humans or pets.

^eAdministrative removals on cougar target areas (2007–present only).

^fIncludes roadkill, accidental, found dead, and illegal kill.

^gHunting season changed to calendar year.

Western Gray Squirrel Season Recommendations

There are no changes proposed to 2026 western gray squirrel seasons (Table 16). Western gray squirrel season information is included in both the Big Game Regulations and the Game Bird Regulations because in many areas western gray squirrel are hunted along with upland game birds.

Table 16. Proposed western gray squirrel seasons and bag limits for 2026.

Hunt	Units	Bag Limit	2025 Dates	Proposed 2026 Dates
North-Central Oregon	34, 35, 39, 41, 42	3/day - 6 in possession	Sept. 15 - Oct. 31	Sept. 15 - Oct. 31
Remainder of Oregon	*10-33, 36-38, 40, 43-77	5/day - 15 in possession	Sept. 1 - Nov. 15	Sept. 1 - Nov. 15

*That portion of Unit 30 (Rogue) south of Rogue River and South Fork of Rogue River and north of Highway 140 is open year-round with no bag limit.

Premium Hunt Summaries and Recommendations

In 2015, the Commission adopted three new controlled hunt series creating the “Premium Hunts”: one series for deer, one series for elk, and one series for pronghorn. Interest in Premium Hunts remains stable with a total number of first choice applications slightly decreasing from 88,396 in 2024 to 84,966 in 2025, including 32,149 applications for deer, 33,095 for elk, and 19,722 for pronghorn. Sale rates for the 2024 Premium Hunt tags were high with only four deer, one elk, and one pronghorn tag not purchased (Table 17).

Premium tag holders continue to have success rates that are higher than regular controlled and general season tag holders. Premium deer tag holders had 79% success, premium elk tag holders 64%, and premium pronghorn tag holders 95% success in 2024. Female harvest remains less than 10% for all three species in the premium series.

There are 67 WMUs in Oregon, 20 in western Oregon, and 47 east of the crest of the Cascade Mountain Range. Most of the Premium Hunts are for a single WMU or hunt area, a few are for two adjacent WMUs. For 2026, one Premium Deer Tag is proposed for each of the 20 western Oregon WMUs and each of the 43 deer hunt areas in eastern Oregon. The shift from 47 WMUs to 43 deer hunt areas in eastern Oregon has resulted in three fewer Premium Deer Tags. One Premium Elk Tag is proposed for each WMU except for three hunt areas that include two WMUs, the Owyhee/Whitehorse hunt area, Steens Mtn/Beatys Butte hunt area, and Juniper/Wagontire hunt area, resulting in 64 elk tags. There are 26 Premium Pronghorn Tags proposed which would be no change from 2025. In total there are 153 premium tags proposed: 63 deer tags, 64 elk tags, and 26 pronghorn tags (Appendix 8).

Table 17. Hunters and harvest for Premium Hunts in 2024.

	Went Hunting											Total Harvest
	Tags Sold	Reports	No	Yes	Antlerless	Spike/ Buck ^a	2 Pt	3 Pt	4 Pt ^b	5 Pt	6 Pt+	
Deer	63	57	1	56	0	0	2	5	37			44
Elk	63	56	6	50	2	2	0	0	0	5	23	32
Pronghorn	25	22	1	21	1	19						20

^a Buck applies to pronghorn, otherwise the column represents spike deer and elk.

^b 4 Pt for deer represents bucks with 4 or more points on one antler
