Oregon Furtaker Information

Dear Furtaker:

This sheet contains information on how to complete your furtaker harvest report form. It is recommended (but not required) you submit your report online instead of mailing or faxing. The link is https://fwpubapps.dfw.state.or.us/furtakerharvest or scan this code:

If you have any questions please contact the Furbearer Program Coordinator at (503) 947-6301. Your participation provides valuable information to ensure sound management of Oregon's furbearers.

Instructions:

1. Print your name, brand number, email address, and telephone number.
2. If you did not participate in any of the seasons, and did not pick up any road kills, check the box "I Did Not Hunt or Trap" and mail the report form.

Fold Here--

3. If you participated in any season you must complete the form as follows, even if you did not harvest an animal. For each species and activity you report on, do not leave any boxes blank. See examples in the Furtaker Regulations.
   a) County: Enter the county of harvest next to the appropriate species. If you need space for additional counties please attach additional form(s).
   b) Harvest: Enter the total number harvested in each county by method of harvest. If harvest is zero, put 0. If an animal was released from a trap or hunted/treed but not harvested, enter that number in the Number Released column and not the Number Harvested column.
   c) Nights trapped and days hunted should be reported for target species only, even if you were unsuccessful. In addition report the average number of traps set each night. Please refer to the examples in the 2024-2026 Oregon Furbearer Trapping and Hunting Regulations.
   d) Pursuit Season: Record activity anytime you pursue, even if you have no intention of harvesting an animal.
   e) Road Kills: Record all road-killed furbearers or unprotected mammals that you take into possession.

4. Beaver harvest reporting requires additional fields which should be completed as follows.
   a) Watershed Name: Using the included maps, locate the watershed name(s) where hunting/trapping occurred. If you need space for additional watersheds please attach additional form(s).
   b) Water Feature/Ownership/Purpose: Select the appropriate response of those provided that best describes the location and purpose of harvest.
