### DIRECTOR'S REPORT

Field Reports – in written form only; *this report is available in the meeting materials and at <https://myodfw.com/sites/default/files/2025-11/Field%20Report.pdf>*

#### Expenditure Report

Ken Loffink, Chief Operating Officer

Ken provided the Commission with an overview of the agency's financial status for the period ending October 31, 2025, marking the start of the 2025 - 2027 biennium. The report highlights a total cash balance of \$163.78 million, including \$72.87 million in unrestricted funds and \$90.91 million in restricted funds. The unrestricted cash total includes \$19 million from wildfire insurance proceeds that will be used for damages incurred in the 2020 wildfires. Expenditures thus far in the 25-27 biennium total 12.05% of the agency's legislatively approved budget limitation. In response to a Legislative Fiscal Office request for all agencies to provide 5% budget

reduction options due to projected general and lottery fund shortfalls, ODFW provided options utilizing a multi-faceted strategy involving vacancy savings, service reductions, and adjustments to its 10% reduction list used in 25-27 biennium budget development. The agency will also begin preparations for developing the 2027- 2029 agency request budget soon.

6 This amended rule provides state authorization of sales of yellow perch, bass, walleye,  
7 catfish, carp, and northern pikeminnow caught in a new Treaty Indian research fishery in  
8 several backwater areas and sloughs of the John Day Pool to reflect recent tribal action  
9 to open this fishery.

15 This rule maintains the three-fish bag limit to keep harvest rates from increasing to  
16 reduce the risk of  
17 exceeding catch limits for multiple rockfish species. During the Oregon Fish and Wildlife  
18 Commission meeting on December 13, 2024, staff cautioned that an in-season bag limit  
19 reduction could be necessary based on pre-season models and lower harvest limits for  
20 both black rockfish and canary rockfish.

22 **5.) 635-005-0465**

23 **Delay Oregon Commercial Dungeness Crab Season Opening**

16 License. The presentation details the new fee structure, exceptions, and specific rule changes,  
17 including repeals and revisions to Oregon Administrative Rules (OARs). It emphasizes the

38

39 John and Nadine provided the Commission with a presentation on proposed rule  
40 amendments that require all commercial fish landing reports be submitted electronically through  
41 the Pacific States Marine Fisheries Commission (PSMFC) e-ticket system, replacing paper tickets  
42 to improve timeliness, data accuracy, and management efficiency; clarify limited fish seller  
43 reporting; remove redundant ad valorem rate language; add definitions (such as “dock receipt”);  
44 and establish regulations allowing catcher/processor vessels to land fish in Oregon with  
appropriate electronic reporting and weighing provisions. They reviewed the history of electronic

reporting, outreach to dealers, current submission levels, and details on how the rule changes would standardize reporting across fisheries, facilitate modernized submission methods (including via mobile devices), and support consistent regulatory compliance for commercial fisheries and catcher/processors operating in Oregon waters.
