of Fish and Wildlife

Issue 1

Mule Deer LOP

Formula

Overview of LOP Program

Created by Oregon Legislature (1981)

Purpose: Controlled hunt tags for landowners on their property

Recognizes importance of private lands

Evolved through multiple legislative and rule changes

Key Features

Tags only valid on owned property

Types of hunts:

- Deer
- Elk
- Doe/either-sex pronghorn

Tag numbers based on acreage

Transfer rules:

- Antlerless tags transferable
- Antlered tags limited

2013 Legislative Changes

Legislation was a compromise

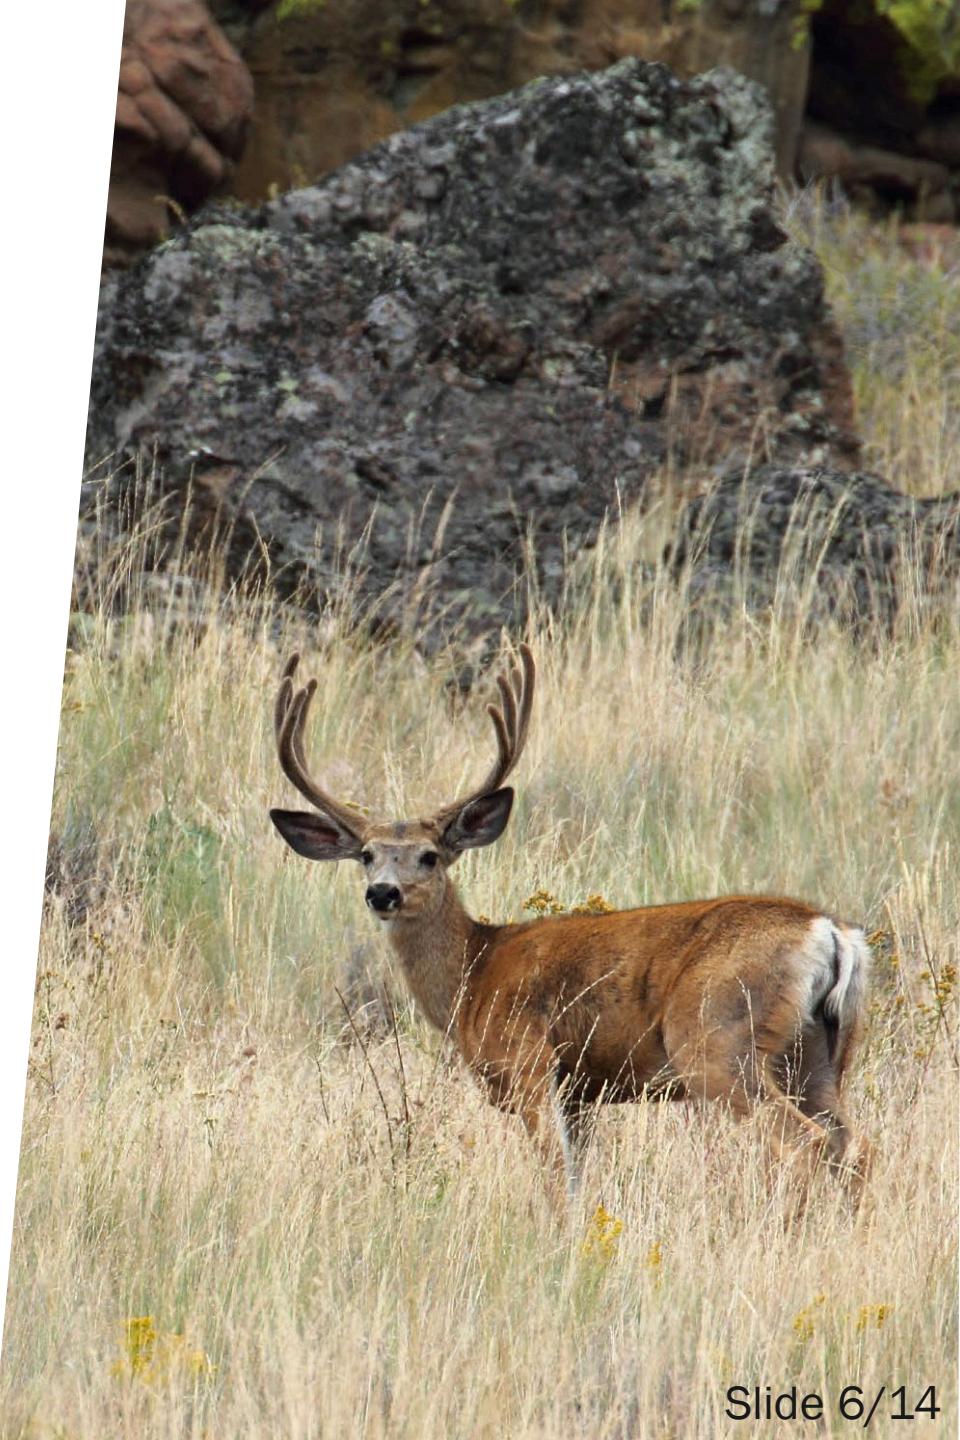

- Expanded definition of “immediate family” and tag transfer to non-family hunters
- Requirement to limit mule deer tags when populations below management goals

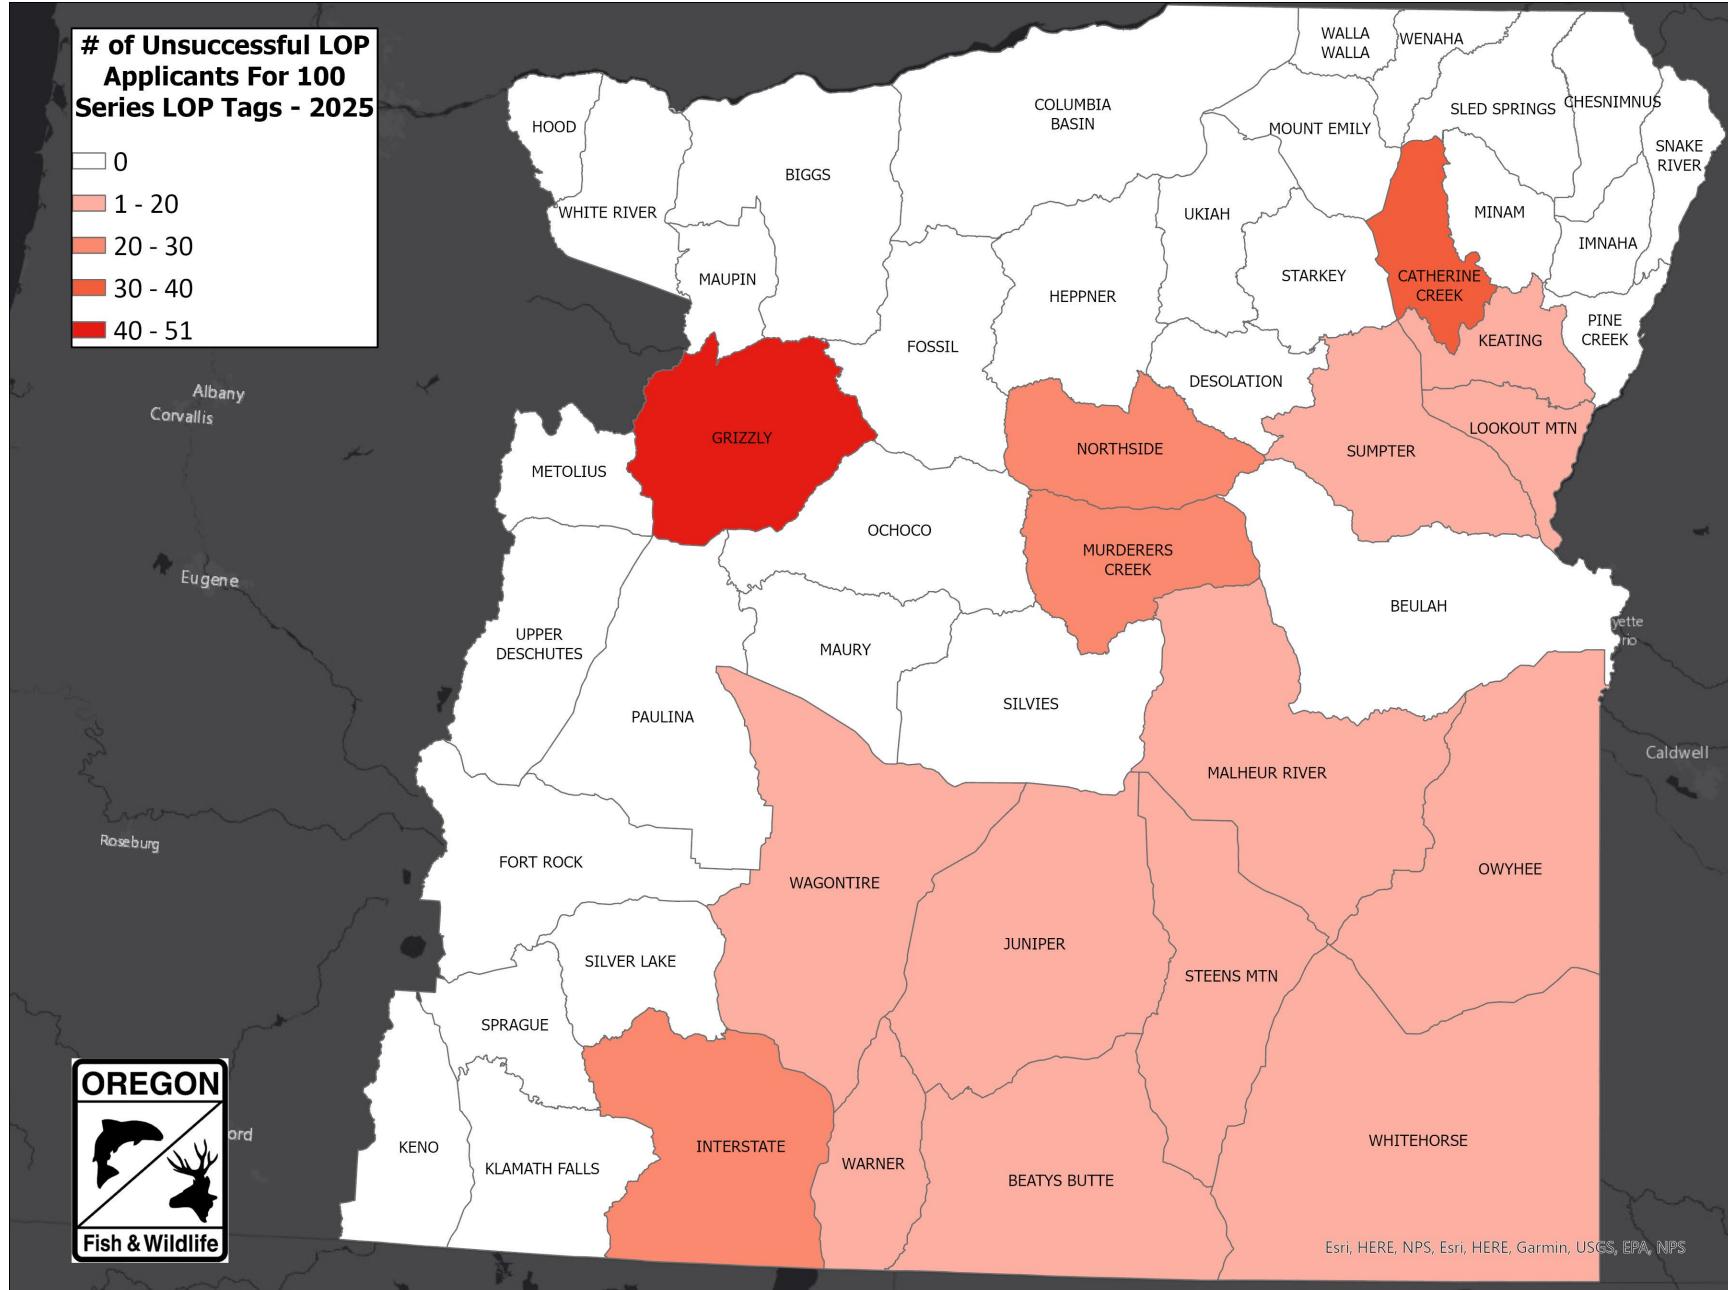

Current Mule Deer Tag Formula

Tier	Population vs MO	LOP Tag Limit
Tier 1	>80%	Per Acreage
Tier 2	60 – 79%	15% of controlled tags or 5 tags
Tier 3	<60%	10% of controlled tags or 5 tags

47 WMUs: Tier 1 (5), Tier 2 (7), Tier 3 (35)

What Did This Mean for Landowners in 2025?

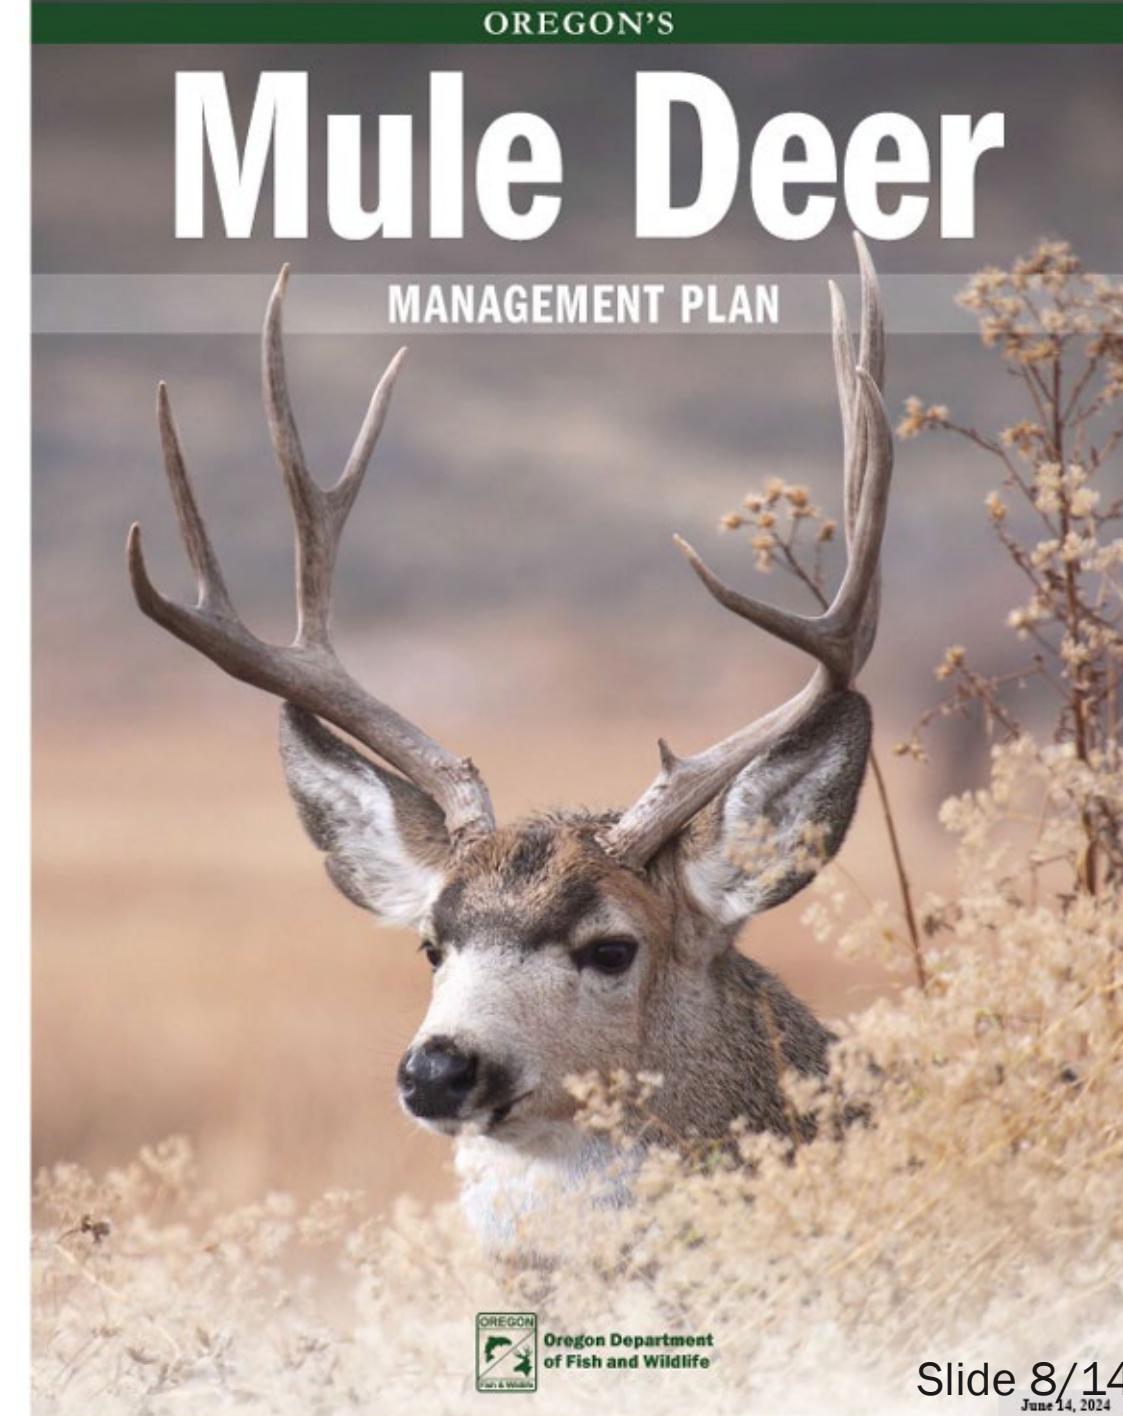

2024 Mule Deer Plan

Management at Herd Range scale

Management Objectives

- Population size and growth rate
- Expressed as concern level

Must align mule deer LOP tag formula with new plan

Goals for Revised Formula

Continue tie to Management Objective

Stability and predictability for landowners

Simplify where possible

Proposed Two-Tier Formula

Tier	Criteria	LOP Tag Limit
Tier 1	<i>Moderate, or Low</i> Concern OR >75% Private Land	Per Acreage
Tier 2	<i>Extreme, Very High, or</i> <i>High</i> Concern	15% of controlled tags or 5 tags

We anticipate the number of limited ALW LOP tags available will increase slightly under this proposal

Next Steps

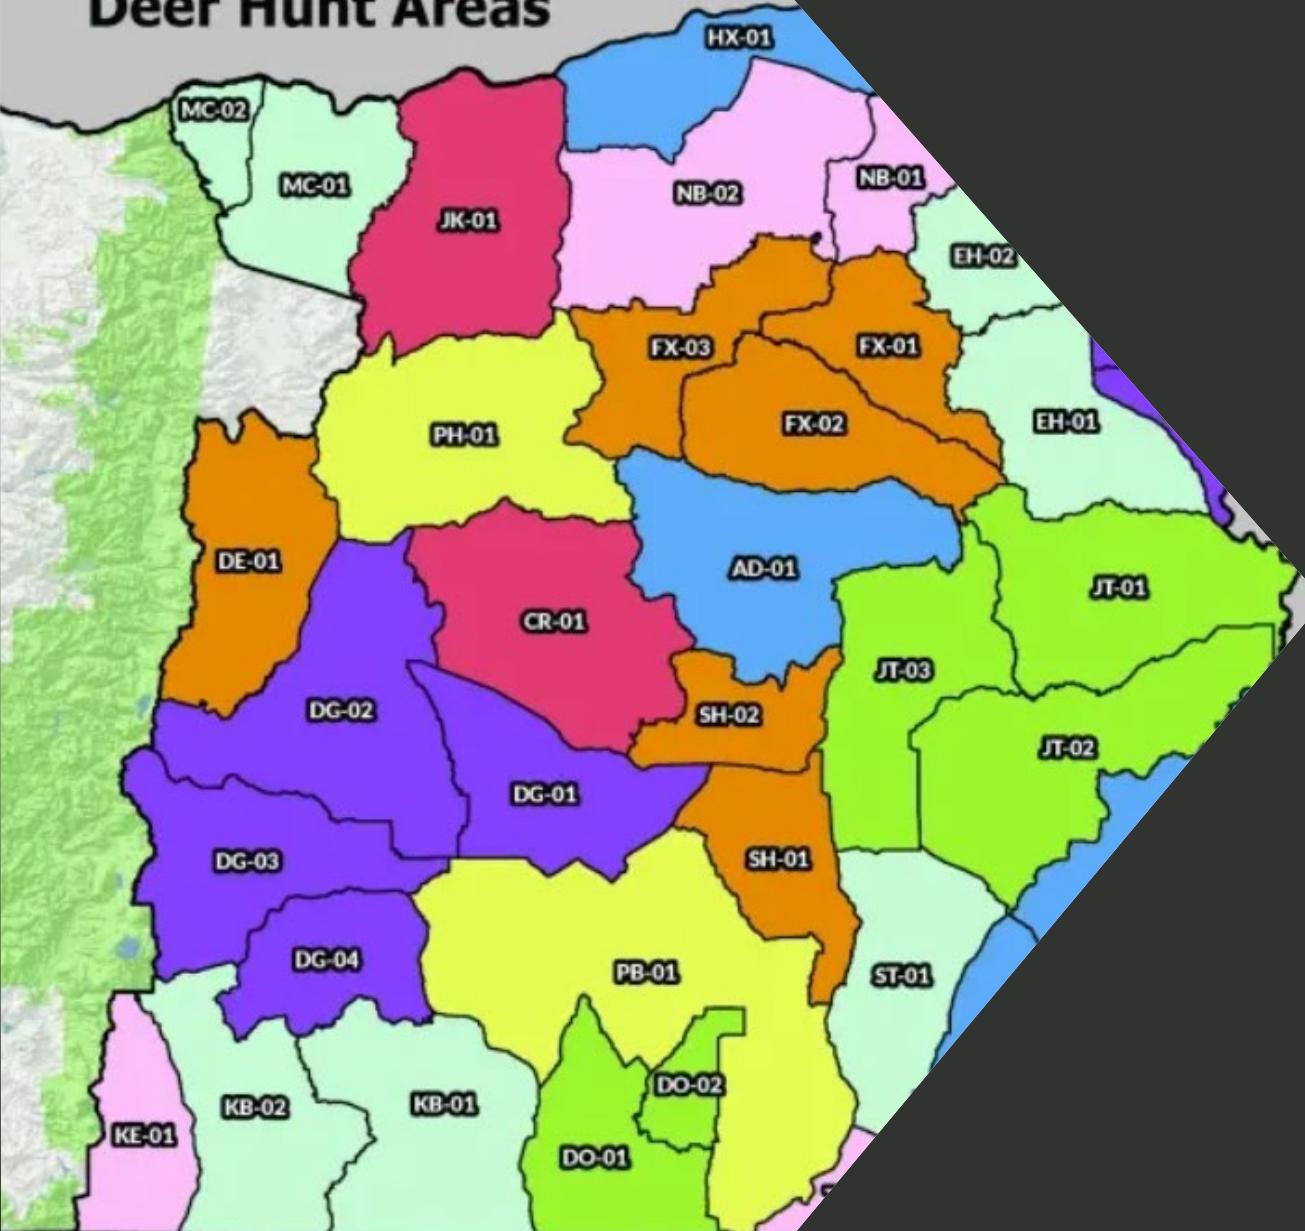

Apply formula for 2026 hunts

Notify landowners by May 1

Evaluate effects of the formula change following 2 or 3 years of implementation

2026 Eastern Oregon Deer Hunt Areas

Issue 2 Herd Range Name Changes

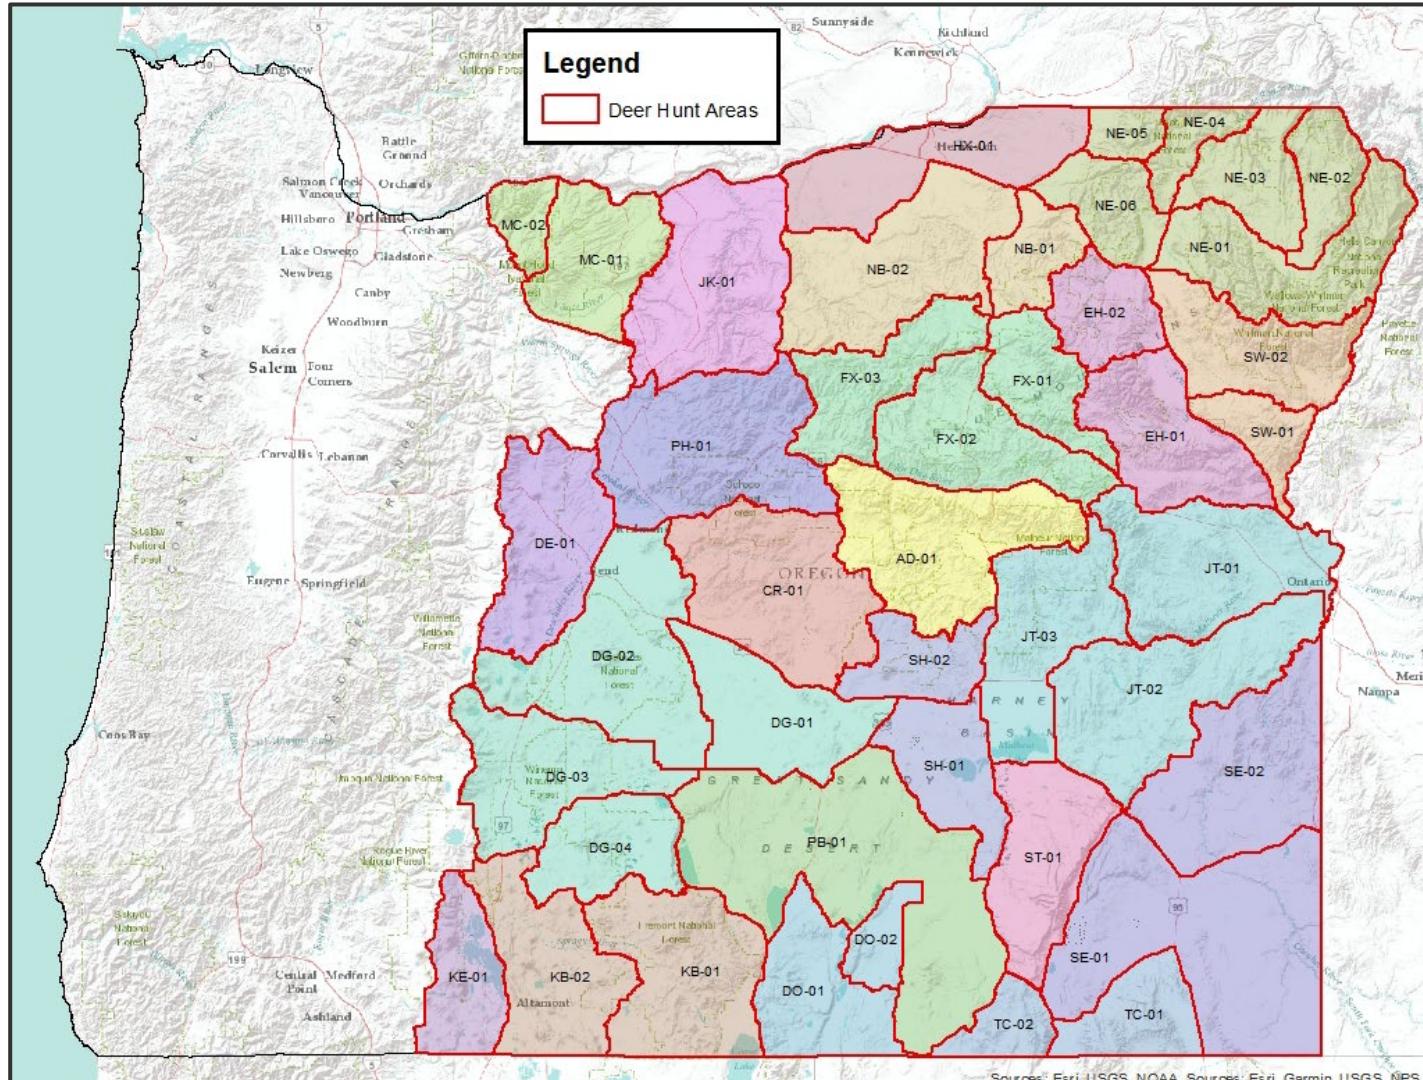

Herd Range Name Changes

Reduce confusion

Consistent with 2026 Big Game Regulations

Matches outreach material
