

TEACH

Teach others hunting fundamentals, how to fish, help support events, and mentor in the field.

If you're an avid hunter, angler, marksman or dog handler, then you already know how much those activities have enriched your life. Consider sharing your expertise, passing on those traits by teaching people how to hunt, introducing people to the fun of fishing, or mentoring new hunters with your trained bird dog to build the next generation of hunters and anglers. Help ODFW reactivate seasoned hunters and anglers to refresh their skills and focus on advanced techniques for a more successful harvest.

- Support events with setup, tear down, gear and material prep.
- Become a fully vetted Volunteer receiving certification training to instruct all ages:
 - in hunter safety curriculum, firearm and range safety.
 - in angler education on the fundamentals of fishing.
- This could be your legacy, helping to create a new generation of safe, ethical hunters, anglers and outdoors people!
